Experience	**Front-End Web Developer Intern**

Superbolt Agency
January 2020 - March 2020
- Developed a few Shopify sections for a custom theme which are currently used in an online store and utilized Slate, HTML, SCSS, JavaScript, and Shopify's Liquid templating language to develop them.
- Created and developed several HTML emails for clients and also utilized email marketing services such as Klaviyo, Mailchimp, and Beefree on a weekly basis to create, send, and schedule email campaigns.
- Developed a landing page for the company's rebranding of SGS Agency into Superbolt Agency. Ensured that the landing page was responsive and compatible across all browsers and devices.

Education

Bachelor of Science in Computer Science
California State University, Northridge
2016 - Present

Languages

HTML CSS/SCSS JavaScript	Python PHP Java
Working knowledge	Basic Knowledge / Previous Experience

Skills

Problem-solver   Quick learner   Team Player   Adaptable   Driven

Projects

Shiba Shapes
github.com/AlanConstantino/shiba-shapes
January 2020
- Created a responsive website that generates shapes with or without shibe images using a form and utilized HTML, CSS, and JavaScript to create the website.
- Utilized the "shibe.online" API to fetch shibe images and embed them within the generated shapes and also added collision detection for shapes of the same kind.

Quiz Game
quiz.alanconstantino.com
November 2019
- Created a responsive single-page website quiz game using HTML, CSS, and JavaScript.
- Utilized the Open Trivia Database API to fetch categories, questions, and answers to create the quiz game.

For Fun Projects

Raspberry Pi Automatic Plant Watering System
github.com/AlanConstantino/rpi-plant-project
March 2020
- Created an automatic plant watering system using a Raspberry Pi and Python. Every 24 hours, the Raspberry Pi waters a plant and sends you an email notification once it has finished.
- Utilized the "gpiozero" library to interface with the Raspberry Pi alongside the "schedule" API to schedule email notifications at given time intervals.

Personal Blog
blog.alanconstantino.com
January 2020
- Created a responsive blog using HTML, CSS, and Bootstrap which talks about coding and web development.
- Learned the basics about Bootstrap, its grid system, and a couple of its components.

Event

CSUN AI-Jam 2019
California State University, Northridge
March 2019 - April 2019
- Worked in a team of five people to create an AI model.
- Developed a few Python scripts for image collection and manipulation.
- Utilized libraries such as Numpy and OpenCV 3 for image cropping.
